# WINCHESTER NURSERY CO.

WINCHESTER, TENNESSEE

## NOTICE

On orders of \$15 and over, when money is sent before shipment, we pay freight charges.

Packing and boxing is expensive, but we do this free, and with the very best material.

We are proud of our reputation of delivering stock true to name, the greatest care possible being taken to see that every tree is true to name, but should any prove untrue to name and label, we require satisfactory proof, then replace the trees free, to the original purchaser, but we are liable no further.

We make selections for our customers when requested, giving to them such collection as we would plant if we were making the order. Great care should be taken in making selections so as to get such varieties as will give good ripe fruit from early summer to late in the winter.

We give the best Special Premium offered, all the stock being extra grade, and first class in every way. A Twenty-five dollar order with the Special Premium gives a very fine collection, especially so when we make the selections. We urge you to send us \$25.00 and ask us to make the selections, giving the kind of trees you want and we will select the varieties.

We have a department managed by a nurseryman of many years' experience, who will answer all inquiries as to fruit culture, giving detailed information as to when to plant in the different parts of the country, how to prepare the land for planting, the kind of fertilizer to be used, the kind of trees for the different kinds of soils, the best trees for a home orchard as well as a commercial orchard, the cultivation of the orchard, this being very necessary, the spraying and pruning and last but not least the gathering of the fruit and taking care of same. Department A.

Landscape Gardening is a specialty, and our Gardener in charge of this work, will give you any information you may want as to what to plant and when to plant. The Art and Science of Landscape Gardening is of paramount importance to every land owner whether limited to a humble city or town lot, large estate or the farm. Every beautifier of his grounds is a public benefactor. Department B.

## SPECIAL NOTICE

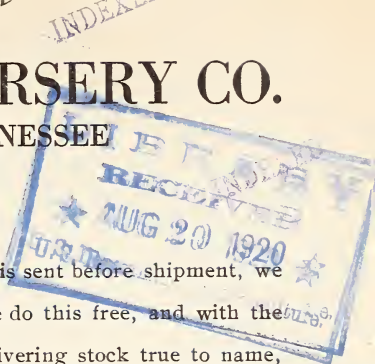

We use the best land that money can buy, the highest grade of fertilizer, get the best seedlings, scion and grafts on the market, see that they are free from disease, cultivate and grow them with the most experienced labor that can be found, and in taking the trees up we are especially careful to see that they are not exposed and thereby damaged. Just as soon as they are dug they are covered so as to keep them from drying and damaging, are hurried to the packing shed and there packed and shipped with great care.

## LISTEN

We can supply you with anything you want, and if you do not find it on this list add it to your bill and you will get it. We could not begin to put in this list all that we grow and sell.

## PECAN TREES

Demand for nuts makes the pecan especially popular, and no order is complete without several trees. Begin now and get a few trees and add to them each year and it will be the greatest investment you have ever made. The demand for Pecan nuts is greater than the supply. It is estimated ten acres of pecan trees taken care of will grow more than \$20,000.00 worth of nuts in fifteen years and the orchard then be worth \$25,000.00. Begin now and you will not regret it.
